

Ultron

DD Series Rail-Style

The DD series unique feature of lifting 120" from the ground is ideal for double or even triple stacking material into a truck body or trailer to maximize your payload.

This workhorse delivers a maximum load capacity of up to 3000lbs. and is versatile enough for a variety of truck body styles, from van bodies to trailers.

With features like "Levelride" and chain and sprocket drive, the DD series is the liftgate that is high on performance and low on maintenance. And if you need a special design or special support program, no one delivers tailor-made solutions faster than Ultron Lift Corp.
